

Protection & Measurement for Medium Voltage

CT-MULTITAP

CURRENT TRANSFORMER FOR MV TAPED

Taped current transformers for internal use, without primary winding.
Suitable for SIA-C Dual & Self Powered Overcurrent & Earth Fault Protection Relays.
Multitap CT with 2 transformation ratios to adapt the transformers to different nominal currents.

Primary .../ 1A	Code	Protection	Self power	Class	Type
25 & 100	41743		2,5 VA	5P10	Taped

CE

TECHNICAL PARAMETERS	CT-MULTITAP 100-25
Type	Taped
Maximum voltage U_m	0,72 kV
Isolation voltage	3 kV
Isolation class	Class B
Short-circuit thermal intensity I_{th}	20 kA – 1s
Short-circuit dynamic intensity I_{dyn}	50 kA
Enclosure	Plastic enclosure and internal resin, self-extinguishing, halogen-free UL94-VO
Standard	IEC 60044-1
Aprox. weight	3,5 Kgs
Secondary connection cables	3 PVC covered cables, halogen-free, 3x3,5 mm ² (length depending on the model). S1- Red, S2-Black, S3-White
